Letter of Engagement

To whom it may concern,

I am writing this letter of engagement to confirm that Atlassian, Inc. engaged Doyensec LLC to perform a security audit between 05/13/2024 and 06/06/2024 requiring 2 security researchers.

Target:

- Jira Data Center v9.13.0
- iOS Application
- Android Application

The project involved a manual web and mobile application security assessment, supplemented by automated tools where applicable to maximize coverage. The assessment was code-assisted (white-box). Testers had access to relevant repositories, development guides, and the ability to consult engineers for additional questions.

For further questions or clarifications, please contact me via email (info@doyensec.com)

Sincerely,
John Villamil (Co-founder)
