To Whom It May Concern,

Letter of Assessment

From 03-Feb-2025 to 21-Feb-2025, pursuant to our agreement with Atlassian Pty Ltd (Atlassian), elttam conducted a review of all components involved in the end-to-end Server to Cloud migration flow.

A dedicated team of 2 experienced security consultants conducted the security assessment over the specified period. The testing team had access to internal documentation, development guides, relevant repositories and got support from engineers. The assessment methodology used a code-assisted (white-box) approach and both automated and manual penetration testing techniques were used.

The engagement concluded with a close-down meeting where findings were discussed with stakeholders. A final report, detailing technical issues and offering remediation advice, was then provided to Atlassian Pty Ltd.

elttam is an independent security company providing research-driven security assessment services to the Fortune 500, global financial institutions, leading technology companies, Australian Federal Government, and up and coming technology start-ups. We combine pragmatism and deep technical insight to help our clients secure their most important assets.

Sincerely,

Matt Jones
Director
